To Whom It May Concern

We express our sincere gratitude for your aid and support in different sectors to develop our rural municipality. As you are providing aid with the simple letter of our rural municipality, we want to focus our concern that the letter signed or approved only by Chairperson is authentic one. According to International Development Grant Act, 2076, Foreign Investment Policy, 2071 and International Development Grant for Province and Local level Policy, we request you to provide aids only by verifying the sign of municipal chairperson in the upcoming days to maintain one door system.
